

GREEN, CEUS AND PROPERTIES

PORCELAIN TILE PROPERTIES

Easy to clean and maintain

Resistant to staining

Resistant to humidity

Resistant to deflection

Suitable for contact with foodstuffs

Resistant to detergents (swimming pool salts)

Resistant to moisture expansion; thermal shock and linear expansion

Dimensional Stability : Rectangularity & Perpendicularity No warpage or lippage

Impervious surface (water absorption 0.1% average value)

Resistant to chemicals (household chemicals)

Resistant to UV rays

Bending and Breaking Load 2,200 Lbs per slab 292 lbs per SF (for 20mm pavers)

Suitable for indoor and outdoor applications

Resistant to high concentrations of acids and alkaline

Resistant to heat

Mohs Hardness 7 Matt 8 Grip + Textured

Used on Floors and Walls

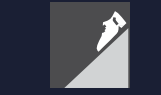

Resistant to mold and fungi

Nonflammable

Resistant to scratches and abrasion

Coefficient of Friction (DCOF >.42 or for wet surfaces in matt . Textured or grip finish, <.42 for polished)

Resistant to freeze-thaw
